

Veranstaltung im Rahmen der GGG Methodenwoche 2012 15.10. – 18.10.2012

Workshopblock 1

Titel der Veranstaltung:

Panel Econometrics: Hands-On Crash Course

Referentin / Referent:

Prof. Ingo Geishecker

Termine:

Montag, 15.10.12 um 10:00 – 13:00 Uhr und 14:00 – 17:00 Uhr und
Dienstag, 16.10.12 um 09:00 – 13:00 Uhr und 14:00 – 16:00 Uhr.

Kurzbeschreibung:

The course provides an introduction to panel econometrics. It consists of lectures and hands-on computer exercises (a laptop is strictly required) using original data from published papers and data from the Socio-Economic-Panel (SOEP). The course is directed towards students interested in the analysis of micro data in the fields of e.g., economics, political science or sociology.

In the workshop the statistics software Stata is used. Knowledge in Stata is not a prerequisite. Topics covered include: ``programming" stata, fixed-effects, instrumental variables techniques and sample selection issues.

Zielgruppe:

Einsteiger & Promovierende aus den Schwesterdisziplinen

ODER

Fortgeschrittene & Promovierende aus der eigenen / naheliegenden Disziplin/en

Vortrags- und Diskussionsprache:

Deutsch

ODER

Englisch

Teilnehmerbegrenzung: 20

Literatur:

Wooldridge, "Introductory Econometrics"
Cameron, Trivedi, "Microeconometrics Using Stata"
Angrist, Pischke, "Mostly Harmless Econometrics"

Leistungsnachweis:

Small assignment with little hands-on empirical analysis. Group work is possible and recommended. Work on the assignment starts under my supervision and can be continued after the workshop.

Please bring along your own laptop!!!

(A manual on how to get access to STATA will be provided in preparation of the workshop.)
