Research greenhouse North Campus (FoGWH)

Cultivation and treatment requirements	
Day/ night temperature ¹ : Light intensity: Day length ¹ :	
Humidity in %: If required, different for day and night	
Watering schedule ¹ : Service or deionized water 	
Fertilisation ² :	
Plant protection ² :	
Harvest ³ :	
Additional remarks:	

¹: Irrigation is managed in close consultation with the greenhouse staff. Please specify your preferred light, temperature and irrigation regime and method.

²: Fertilisation and plant protection are also carried out in accordance with operational requirements. The use of beneficial insects is preferred.

³: Harvesting is carried out by research staff or arranged in consultation with the greenhouse staff.

I hereby agree to the current version of the Terms of Use and Hygiene Regulations, as well as the Service Unit's Usage Guidelines (available at: <https://www.uni-goettingen.de/de/start/697021.html>). I also confirm that I will bear the costs of the experiments in accordance with the provisions set out in Annexes 3 and 4. In the event that genetically modified plants are used, I guarantee that these are free from Agrobacteria."
