

Assignment of a Topic for Final Thesis: Applied Data Science

Degree programme:

Matriculation no.:

Name:

E-Mail:

Topic:

Beginning of the work:

I hereby confirm that I have fulfilled all the requirements (to be found in the respective examination and study regulations (Prüfungs- und Studienordnung)) for the final thesis.

Signature (student):

<input type="text"/>	<input type="text"/>	_____
Place	Date	Signature

Primary supervisor¹:

E-Mail:

Institute/Company:

<input type="text"/>	<input type="text"/>	_____
Place	Date	Signature

Secondary Supervisor¹:

E-Mail:

Institute/Company:

<input type="text"/>	<input type="text"/>	_____
Place	Date	Signature

Approval of topic by board of examination:

<input type="text"/>	<input type="text"/>	_____
Place	Date	Signature

¹Please note: Both supervisors need to be authorized for examination (possess a "Prüfungsberechtigung") for the respective degree programme / specialization. Please find the official regulations for Prüfungsberechtigungen in our degree programmes [here](#).

Enrolment Number:

Writing Buddy:

If you already have a writing buddy, please enter their name. Otherwise, please leave the field blank.

Submission Dates Milestones

Please note that the deadlines for the milestones are to be defined in dependence of the thesis starting date according to the following scheme.

The milestones are always due on Fridays at 5 PM, **counting starts the day after the thesis starting date** (= "Beginn der Bearbeitung" / "Beginning of the work" according to page 1).

Milestone	Bachelor's Thesis	Master's Thesis
1	3 rd Friday after registration	4 th Friday after registration
2	8 th Friday after registration	18 th Friday after registration
3	10 th Friday after registration	22 nd Friday after registration

Beginning of work (according to page 1):

Milestone Submission Date to be filled in by the supervisor	I confirm that the milestone was presented and discussed to be filled in by the tutor
1: Research Proposal Friday, <input type="text"/> , 5 PM	Date: <input type="text"/> Name: <input type="text"/> Signature: _____
2: Figures and Tables Draft Friday, <input type="text"/> , 5 PM	Date: <input type="text"/> Name: <input type="text"/> Signature: _____
3: Full Draft Friday, <input type="text"/> , 5 PM	Date: <input type="text"/> Name: <input type="text"/> Signature: _____

The **tutorial**, in which the milestones and the peer-feedback will be discussed, is offered every Tuesday, 8 AM. **Please check StudIP for your individual appointments.**

I talked to my supervisor and took notice of the above-mentioned submission dates and directions.

Date

Signature Student

Dear colleague,

you are supervising a thesis in Applied Data Science (B.Sc. or M.Sc.). In these programs, the thesis work is accompanied by a structured training program on scientific writing and presentation. Therefore, there are a few things for you to consider. Please find a brief summary below.

If you have any questions, please feel free to contact us or the programme coordinator Anna Platte (39-21426; anna.platte@informatik.uni-goettingen.de).

Prof. Dr. Fabian Sinz (responsible for the Bachelor's programme, sinz@uni-goettingen.de)

Prof. Dr. Alexander Ecker (responsible for the Master's programme, ecker@cs.uni-goettingen.de)

Students participate in the following courses/events in addition to their thesis work:

- Before** (during) thesis work: block course "Scientific Writing" (three Fridays)
- During** thesis work: submission of three milestones and mutual peer-feedback, participation in a tutorial
- After** thesis completion (M.Sc. only): presentation of thesis in the Data Science colloquium

Scientific Writing

Scientific Writing is a block course offered every semester (during the first few weeks). As the course is supposed to provide students with useful knowledge and skills for working on a thesis¹, we strongly recommend them to visit Scientific Writing **prior to the start or during the first half of their thesis**.

The course is mandatory for all students of Applied Data Science (B.Sc. & M.Sc.). However, it **doesn't require any action from you** as their supervisor.

Milestones and Peer Feedback

Each student has a "writing buddy" (another student). As **mandatory examination requirement** for Scientific Writing, students need to submit specific parts / stages of their thesis (**Milestones**). With their writing buddy, they provide each other mutual peer feedback on those milestones.

The milestones are **identical for all students** and their submission follows a **fixed schedule** depended on the individual thesis registration date (shown in the table on the right). **Please make sure that theses are registered early on. Registering a thesis a few weeks before submission is not possible and will result in a potentially long delay for the students!**

Milestone	B.Sc.	M.Sc.
1: research proposal	3 rd	4 th
2: draft of figures and tables	8 th	18 th
3: full draft	10 th	22 nd

*) counting starts the day after the thesis starting date
(= "Beginning of the work" according to thesis registration form)

We collect the milestones and organize the peer feedback and tutorial centrally (no responsibilities for you).

We kindly ask you to consider these milestones in your supervision and the project plan for the thesis, and to support the students in meeting them.

Colloquium (Master's thesis only)

The Colloquium is offered four times a year (March, May, September, November). We kindly ask you to **attend your student's talk** (30 minutes). Please mark the day in your calendar and plan to attend in person. We will be in touch early on to find a suitable time slot. Any members of your lab who are co-supervising the student are also invited.
