

Call for Applications

Innovation Pool Funds for outreach activities and student projects

The steering committee of the Competence Centre Landscape Resilience of the University of Göttingen (UGOE) is pleased to invite motivated student groups to apply for the funding programme **Innovation Pool** with the following focus area:

Student Projects

Description: We invite student groups to submit proposals for collaborative projects that promote active student engagement in the field of landscape resilience. This call aims to support creative, critical, and participatory approaches that contribute to the topic of landscape resilience. Projects should clearly demonstrate student-led engagement and initiative. The focus is not on traditional research, fieldwork, or data collection, but on conceptual, communicative, or organizational activities that foster dialogue, awareness, and knowledge exchange around the topic of landscape resilience.

Target Group and Requirements:

Applications must be submitted by groups of students; individual applications will not be accepted. Projects should point out engagement, such as organizing discussions with external speakers, workshops, excursions, hackathons, exhibitions, scientific movie nights, or other interactive formats.

Application: One-page project proposal with goal, impact, and budget (use template)

Funding Amount: Up to €4,000 available, several small projects possible

Timeline: the proposed project needs to be implemented by the end of February 2027

How to apply and deadline

Proposals should be submitted using the corresponding **templates** provided on the website of the Competence Centre (please use the Excel spreadsheet for the budget calculation). Send the application including the budget calculation sheet **in one pdf to landscape.resilience@forst.uni-goettingen.de**

For detailed information, please visit the website of the Competence Centre:

If you have questions, please contact: landscape.resilience@forst.uni-goettingen.de

DEADLINE: 30th August 2026, 12:00 (midday).

Through this call, we aim to empower students to take an active role in shaping conversations around landscape resilience.

We look forward to your proposals!
