

Tagungsbeiträge 2008

1. Aizen MA, Garibaldi LA, Cunningham SA, Klein AM (2008) Long-term global trends in crop yield: evidence of a pollination shortage? The Ecology and Evolution of Plant-Pollinator Interactions. 93rd Annual Meeting of the Ecological Society of America (ESA): Enhancing Ecological Thought by Linking Research and Education, Milwaukee.
2. Batáry P, Tschardt T (2008) Does landscape context mediate biodiversity effects of agricultural intensification? A meta-analysis and a case study. Network Meeting of the Alexander von Humboldt Foundation, Münster, 95.
3. Batáry P, András Báldi A, Samu F, Szöts T, Erdős S (2008) How do local and landscape scale effects influence the spider assemblages in Hungarian pastures? Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 631.
4. Batáry P, Matthiesen T, Tschardt T (2008) Are hedges more important than agri-environmental schemes? A case study on birds of meadows and arable fields in Germany. 5th Hungarian Conservation Biological Conference, Nyíregyháza, 107.
5. Clough Y (2008) Cacao agroforestry: an ecological perspective on synergy potentials between agriculture and conservation. Tropical Rainforests and Agroforests under Global Change International Scientific Conference on *Tropical Rainforests and Agroforests under Global Change*, Kuta, Bali, 38.
6. Clough Y, Tschardt T (2008) Forest edges viewed from outside: conservation value of agroforests at the margin of a major National Park in Sulawesi, Indonesia. Past and recent history of tropical ecosystems: Cross-continental comparisons and lessons for the future Annual meeting of the Association of Tropical Biology and Conservation (ATBC) 2008, Paramaribo, Suriname, South America, 112.
7. Dormann CF, Fründ J, Blüthgen N, Gruber B (2008) Indices, graphs and null models: tools for elucidating the ecological causes of bipartite network topology. Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 262.
8. Eilers EJ, Klein AM (2008) Friend or enemy - corridor or fence? Landscape context affects vertebrate - mediated almond pest reduction. Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 516.
9. Holzschuh A, Tschardt T (2008) Land use intensity and landscape composition determine native bee diversity in agricultural landscapes. Celebrating Entomology: Contributions to Modern Science XXIII International Congress of Entomology, Durban, 1555, 1.
10. Holzschuh A, Dormann CF, Steffan-Dewenter I, Tschardt T (2008) Additional resource or competition for pollinators? The impact of oilseed rape on bee diversity and rare plant pollination in adjacent grasslands. Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 255.
11. Holzschuh A, Steffan-Dewenter I, Tschardt T (2008) Landscape composition and organic farming influence bee diversity in agricultural landscapes. 3rd European Conference of Apidology, Belfast.
12. Jauker F, Meyer B, Wolters V (2008) Contrasting responses of bees and hoverflies to land-use intensity why pollinator fails as a functional group. Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 253.
13. Klein AM, Eilers EJ, Voss M, Kremen C (2008) Nature, bees, and marzipan: can wild insects contribute to almond pollination in California? Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 259.
14. Klein AM (2008) Biodiversity, functional traits, and crop pollination in tropical landscapes. Past and recent history of tropical ecosystems: Cross-continental comparisons and lessons for the future Annual meeting of the Association of Tropical Biology and Conservation (ATBC) 2008, Paramaribo, Suriname, South America, 85.
15. Körösi Á, Szentirmai I, Örvösy N, Kövér S, Batáry P, Peregovits L (2008) Study of mowing on the populations of Scarce Large Blue (*Maculinea teleius*) initial steps of a management experiment. 5th Hungarian Conservation Biological Conference, Nyíregyháza, 128.
16. Kovács A, Báldi A, Batáry P, Tóth L (2008) The significance of set-aside schemes in bird conservation in Heves Landscape Protection Area. 5th Hungarian Conservation Biological Conference, Nyíregyháza, 91.

17. Kovács A, Batáry P, Báldi A (2008) Arthropod assemblages of grasslands and cereal fields in Kiskunság: where and how to concentrate the effort of nature conservation?. 3rd Quantitative Ecological Symposium, Budapest, 18.
18. Kovács A, Batáry P, Báldi A (2008) Distribution of bees on Hungarian autumn-sown cereal fields cultivated with different intensity. Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 251.
19. Krösi Á, Szabó A, Örvössy N, Batáry P, Peregovits L (2008) A spatially explicit simulation model for analyzing butterflies' movement paths. Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 425.
20. Maas B, Dwi Putra D, Waltert M, Tscharntke T, Schulze CH (2008) Six years of rainforest margin modification does not affect bird diversity but endemic species on Sulawesi. Tropical Rainforests and Agroforests under Global Change International Scientific Conference on *Tropical Rainforests and Agroforests under Global Change*, Kuta, Bali, 48.
21. Parsche S, Fründ J, Tscharntke T (2008) Does environmental change reduce pollination success by wild bees? Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 272.
22. Richter AK, Oelmann Y, Scherber C, Weisser WW, Wilcke W (2008) Does herbivory influence the nitrogen and phosphorus dynamics in throughfall and soil solution? Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leipzig, 536.
23. Scherber C (2008) Die Bedeutung der Artenvielfalt für Ökosysteme und den Menschen. 55. MNU Tagung des Deutschen Vereins zur Förderung des mathematischen und naturwissenschaftlichen Unterrichts e.V., Bremerhaven.
24. Scherber C, Ebeling A, Eisenhauer N, Fischer M, Halle S, Klein AM, Milcu A, Rottstock T, Sabais A, Scheu S, Voigt W, Schmid B, Schulze ED, Weisser WW, Tscharntke T (2008) Responses of Ecosystem Components to Biodiversity Change. 14th German-American Frontiers of Science Symposium, Postdam.
25. Shahabuddin, Manuwoto S, Hidayat P, Noerdjito WA, Tscharntke T, Schulze CH (2008) Regional differences in the decay of the dung beetle communities along land-use gradients in Central Sulawesi, Indonesia. Tropical Rainforests and Agroforests under Global Change International Scientific Conference on *Tropical Rainforests and Agroforests under Global Change*, Kuta, Bali, 164.
26. Shahabuddin, Manuwoto S, Hidayat P, Noerdjito WA, Tscharntke T, Schulze CH (2008) Tropical land-use changes affect diversity, mean body size and ecosystem functioning of dung beetles. Tropical Rainforests and Agroforests under Global Change International Scientific Conference on *Tropical Rainforests and Agroforests under Global Change*, Kuta, Bali, 162-163.
27. Somay L, Batáry P, Boros E (2008) The effect of land-use on bird communities of sandy grasslands. 5th Hungarian Conservation Biological Conference, Nyíregyháza, 142.
28. Stenchly K, Clough Y, Tscharntke T (2008) Spider diversity of cacao agroecosystems in relation to management strategies and microclimate changes in Sulawesi, Indonesia (Arachnida, Araneae). Tropical Rainforests and Agroforests under Global Change International Scientific Conference on *Tropical Rainforests and Agroforests under Global Change*, Kuta, Bali, 69.
29. Tscharntke T (2008) Coffee pollination on a landscape scale. Celebrating Entomology: Contributions to Modern Science XXIII International Congress of Entomology, Durban, 602.
30. Tscharntke T (2008) Complementary resource use in species-rich predator and parasitoid assemblages. Celebrating Entomology: Contributions to Modern Science XXIII International Congress of Entomology, Durban, 601.
31. Tscharntke T (2008) Landscape perspectives on land-use change and insect outbreaks. Celebrating Entomology: Contributions to Modern Science XXIII International Congress of Entomology, Durban, 603.
32. Tscharntke T (2008) Managing biodiversity and ecosystem services in changing landscapes. Biodiversity in an Ecosystem Context Verhandlungen der Gesellschaft für Ökologie, Leibzig, 628.
33. Tscharntke T (2008) Multitrophic level interactions in changing landscapes. Celebrating Entomology: Contributions to Modern Science XXIII International Congress of Entomology, Durban, 600.
