

Summer School on Operator Algebras, Spectral Theory and Applications to Topological Insulators

Tbilisi, September 17-21, 2018

Supported by

Advanced courses

Constanza Rojas-Molina
(Düsseldorf)

Random Schrödinger operators

Ralf Meyer
(Göttingen)

From materials to K-theory and operator algebras

Hermann Schulz-Baldes
(Erlangen)

K-theory and topological insulators

Gian Michele Graf
(ETH Zurich)

Anderson localization and topological phases

Introductory courses

Chern characters and K-theory
Spectral theory

Malkhaz Bakuradze (Tbilisi)
Ingo Witt (Göttingen)

Organizing committee

Ralf Meyer
Ingo Witt
Georg-August-Universität
Göttingen

Malkhaz Bakuradze
Ramaz Botchorishvili
Ushangi Goginava
George Jaiani

Ivane Javakhishvil
Tbilisi State University
1 Chavchavadze Avenue
Tbilisi 0179, Georgia
