

## M.Sc. Developmental, Neural, and Behavioral Biology

### timetable core modules - 2026/27

|             | Block 1                                           | Block 2                                                        | Block 3                                          |
|-------------|---------------------------------------------------|----------------------------------------------------------------|--------------------------------------------------|
| period      | 26 Oct - 27 Nov 2026                              | 30 Nov 2026 - 15 Jan 2027<br>(christmas break 28 Dec - 08 Jan) | 18 Jan - 19 Feb 2027                             |
| winter term | M.Bio.303:<br>Cell Biology                        | M.Bio.304:<br>Neurobiology 1                                   | M.Bio.306:<br>Introduction to Behavioral biology |
|             | M.Bio.323:<br>Introduction to Bayesian Statistics |                                                                | M.Bio.321:<br>Current Developmental Biology      |

| period      | 12 Apr - 14 May 2027                                      | 17 May - 18 Jun 2027                            | 21 Jun - 23 Jul 2027              |
|-------------|-----------------------------------------------------------|-------------------------------------------------|-----------------------------------|
| summer term | M.Bio.305:<br>Neurobiology 2                              | M.Bio.322:<br>Frontiers in Neural Development   | M.Bio. 307:<br>Behavioral Biology |
|             |                                                           | M.Bio.308:<br>Social Behavior and Communication |                                   |
|             | **M.Bio.310: Systems Biology (during lecture period only) |                                                 |                                   |

\*\* The practical part can be organized individually with advisor, continuous lecture and seminar

|                |                                |              |                    |
|----------------|--------------------------------|--------------|--------------------|
| Bioinformatics | Developmental and Cell Biology | Neurobiology | Behavioral Biology |
|----------------|--------------------------------|--------------|--------------------|

The exact times and dates for lectures, seminars, practicals and examinations are published online: eCampus "University course catalogue"
